## Recommendations – Eligibility and Certification (cont.)

- 5. In-person assessments be introduced as part of this process.
- 6. Applicants certification reflect categories of: *unconditional, temporary, and conditional (tripby-trip).*
- 7. Re-certification every 5-years

ACCESSIBILITY FOR ONTARIANS WITH DISABILITIES ACT 2005 (AODA)

**Unconditional:** disability prevents use of conventional transit

Temporary: temporary disability

**Conditional:** disability where environmental or physical barriers limit their ability to consistently use conventional transit

May be denied requests to persons who have temporary or conditional eligibility if conventional transit is accessible and the person has the ability to use it.

# Recommendations – Reservations & Scheduling

- 1. The reservations/trip request and scheduling functions be centralized under a single entity.
- 2. Enable registrants to make reservations/trip requests by telephone, app and/or web-portal (*One-Call/One-Click* capability).
- 3. Scheduling (route optimization, allocation of resources) to use state-ofthe-art, commercially available software with a robust scheduling algorithm.

## Recommendations – Policies, Procedures, and Performance Metrics

1. Governing entity develop a robust set of policies, procedures and performance metrics.

Policies and procedures to include but not be restricted to:

- Advance booking requirements
- Scheduling windows

- Cancellations and no-shows
- Fare policy

Advance discussions focused on community collaboratives (e.g., Niagara Health)

Performance metrics to reflect industry norms regarding key performance indicators (KPIs) including requirements for service monitoring, contract compliance and CUTA reporting.

# Recommendations – Service Delivery

- Core specialized transit services comparable to level of service as currently provided by the aggregate of the municipal and regional specialized transit providers.
- 2. Use of supplemental taxis and/or transportation network companies (TNCs) during times of day, days of week, areas of service, or 'overflow' capacity (when the deployment of hourly service would not meet prescribed performance metrics).
- 3. Supplemental services, as described above, be used to accommodate future travel demand/expansion of specialized transit services.

Supplemental services to be contracted on a per trip bases and hence, only pay for services consumed and may include subsidized same-day service.

## Recommendations – Greater Link/Integration with Fixed-Route Transit Services

1. Apply *conditional/trip-by-trip* eligibility

*Conditional* - where conditions can be determined (e.g., seasonal, climate/weather, topography, accessible paths of travel, proximity of trip origin/destination to fixedroute service, transit hubs, etc.).

 Develop incentives and policies to address travel/mobility demand management strategies

*Strategies* include: travel/mobility training, fare policy, trip discovery/ planning capabilities, etc.

## Recommendations – Same-Day Pilot Program

- 1. Through partnerships with taxi and/or transportation network companies (TNCs) provide subsided, app-based (including trip request, tracking, and mobile payment) trips to specialized transit registrants.
- Establish parameters including maximum per trip subsidy/distance and use of fare policy to influence travel behaviour.
- For those who may not have a Smart device and/or the unbanked, ensure the provision of a call-centre and ability for trip payment by alternate means.

# **Recommendations** – Technology

- 1. Technology enhancement that include:
  - a. Real-time passenger information including the broadcast (text message or telephone call) of vehicle arrivals.
  - b. Self-service capabilities through an app and/or web portal to address registration, trip planning, reservations, confirmations and cancellations.
  - c. Mobile (cashless) payment.

# Implementation Plan

## Within context of *Transit Governance Study*

## Near-Term (0 - 2 years)

- Harmonizing application form
- Centralized eligibility & certification process
- Development of policies, procedures, and performance metrics

## Mid-Term (2 - 5 years)
