Subject: Consolidated Transit System for Niagara

As a 20-year resident in Niagara-on-the-Lake and owner of a bed and breakfast, I cannot tell you how much a single, consolidated transit system would benefit our community. As a one-car household, it is challenging to synchronize our schedules as we go about our daily duties and tasks. With a consolidated transit system, these daily routines could be much more organized and efficient. The system would also help our B&B clients to tour and experience much more of the Niagara Region, especially those who do not have a car and rely on public transportation or taxis to get around. Yes, we do have some of those!

Please support a single, consolidated transit system for our community. It would make our lives so much easier and the region, as a whole, would benefit greatly!

Thank you,
