To the Regional Chair and Members of Council,

As a resident and a citizen of Niagara, I wish to express my support for the transit amalgamation plan being put forward on November 25th.

Niagara needs a better transit system. Better public transit means a better quality of life for us all. It will reduce poverty, reduce our carbon footprint, and help grow our economy. It will encourage young people to stay here and will help working families thrive.

This amalgamation is the first step on the path to the public transit system Niagara needs and deserves. I urge you to support it with your vote on the 25th.

\* On a personal note, having worked with the homeless and those in need for the past 20 years, I know from experience how much this is needed. Not having access to jobs in different cities has been a deterrent to getting those jobs- they just can't get there and can't afford a vehicle. I hope the cost of the transportation will also not prevent them from making use of it. Pennies count - they will often walk rather than spend the money on a bus- even in the harshest cold.

Thank you for your consideration.
