Niagara Consolidated Transit Model

comments

I am writing today to strongly endorse and support the proposal for a Niagara region-wide consolidated transit model. Increasing connectivity in the region, and reducing single-occupant vehicle use through enhanced public transit are important objectives for the region, and for reduction of greenhouse gases. The consolidated transit model is a powerful next-step in advancing a more unified transportation network for the region. Please support this work and continue to develop the model for rapid

implementation - the sooner we can reduce both greenhouse gases and barriers to region wide mobility, the better. Thank you

reply
yes
