

## Appendix 1: Woodland By-Law Charts

### By-Law Inquiries

In 2021, Bylaw staff responded to 201 bylaw inquiries. Chart 1 indicates the number of inquiries by program area. Most of the inquiries were related to enforcement concerns, followed by planning and by-law exemptions. A high proportion of all inquiries were related to the removal of dead or hazardous ash trees.

**Chart 1: Number of Inquiries by Program Area**

### Program Area Descriptions:

|                                  |   |
|----------------------------------|---|
| <b>Enforcement:</b>              | Any enforcement related matters which required action by by-law staff.  |
| <b>Exemptions:</b>               | Inquiries regarding exemptions which required evaluation by by-law staff.   |
| <b>Individual Trees:</b>         | Inquiries regarding individual trees on private property, most of which are outside the jurisdiction of the by-law. |
| <b>Permits Approval:</b>         | The review and issuing of a Good Forestry Practices permit.   |
| <b>Permits Final Inspection:</b> | A formal documented inspection of a completed harvest operation.  |
| <b>Public Outreach:</b>          | Inquires about by-law & other educational materials. Mail out of educational materials.                             |

|                     |  |
|---------------------|--|
| <b>Enforcement:</b> | Any enforcement related matters which required action by by-law staff. |
| <b>Planning:</b>    | Land use planning inquiries  |

**Chart 2: Number of Inquiries by Interest Group**

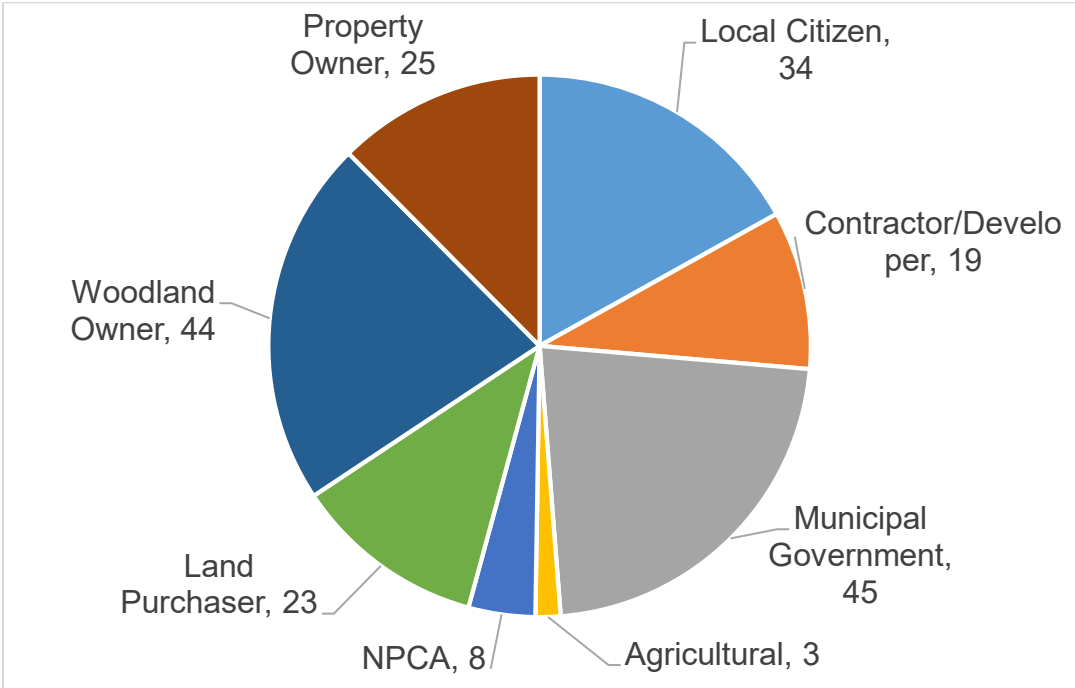

Chart 2 is a break down who has made the inquiries to the Regional office. Most of the inquiries are from Municipal representatives, followed by woodlot owners, local citizens and contractors/developers.
