

Appendix 1 - Summary of Local Area Municipalities' Position on the Proposed Base Collection Options

Report Recommendations – Proposed Base Collection Options:

1. That, based on the results of consultations with the various stakeholder groups, including the Local Area Municipalities (LAMs), the Request for Proposal (RFP) for Niagara Region's next garbage, recycling and organics collection contract **BE APPROVED** to include the following base collection options:
 - a) Obtain pricing for the following garbage collection frequency options:
 - i) Every-other-week (EOW) garbage collection for all residential properties and for those Industrial, Commercial & Institutional (IC&I) and Mixed-Use (MU) properties located outside Designated Business Areas (DBAs), as a base service (weekly recycling and organics to continue, and current garbage container (bag/can) limits would double for affected sectors, on an EOW basis), and
 - ii) Status quo – weekly base garbage collection service for all residential, IC&I and MU properties. Current garbage container limits would not change.
 - b) Establish a four (4) item limit per residential unit, per collection, for large item collection at Low-Density Residential (LDR) properties, as a base service.
 - c) Obtain pricing to discontinue and continue appliances and scrap metal curbside collection at LDR properties, as a base service.
 - d) Change the weekly garbage container (bag/can) limits for Industrial, Commercial & Institutional (IC&I) and Mixed-Use (MU) properties located inside Designated Business Areas (DBAs) from seven (7) containers to four (4) containers per property, as a base service.
 - e) Change the weekly garbage container (bag/can) limit for MU properties located outside DBAs from six (6) containers to four (4) containers per property, as a base service.
2. That mandatory use of clear garbage bags, with the option of allowing an opaque privacy bag to be placed inside the clear bag, **NOT BE IMPLEMENTED** for all sectors, as a base service at this time.
