NRHSS Review - Outcomes

REVIEW, RECOMMENDATIONS & SYSTEM 2.0 IMPLEMENTATION

NRHSS Survey Response

“Comprehensive report. Will require lots of open discussion with all parties to get us to 2023. In order for change to happen adequate resources must be in place. Always working without enough limits imagination as well as results. People suffer when they are not housed or their housing is always at risk. Communities are diminished. Can plan be used to build sense of urgency in community?”
