Subject: Proposed quarry
Date: October 4, 2023 9:53:24 PM

Good Evening,

I am writing this email as a concerned resident in the Fernwood subdivision. I am absolutely appalled that a proposed quarry is set to operate so close to our subdivision. This is absolutely devastating and harmful to everyone residing in this area. I feel as though we were never told about this quarry. It was all done behind our backs. Please, please, do not pass this. There is nothing good to become of this and it is way too close to residents and children who are in fact in close proximity to the proposed quarry. I would really appreciate if this matter was researched more carefully. The harmful affects far outway anything that would even remotely be close to thinking this is a good idea. This should in no way be passed.

Thanks you for your time,
Helen Petruzzo
