Hello. A number of years ago, I visited a cousin in Germany who lived in a townhouse development using district heating. It seemed to be a feasible, practical and reliable alternative to expensive stand-alone systems. I'm asking that on Tuesday morning you support the motion to have staff extend a Request for Proposal for a feasibility study of a district energy plant at the new wastewater treatment plant in Niagara Falls. This is a great opportunity for the Niagara Region that, if feasible, we cannot miss.

Thank you
Frank Fohr

Good Day,

I'm asking that on Tuesday morning you support the motion to have staff extend a Request for Proposal for a feasibility study of a district energy plant at the new wastewater treatment plant in Niagara Falls.

This is a great opportunity for the Niagara Region that, if feasible, we cannot miss. Clean, renewable energy is the direction we need to work towards.

Thank you,

Ray and Pat Konkle

Good Morning,

I'm asking that on Tuesday morning you support the motion to have staff extend a Request for Proposal for a feasibility study of a district energy plant at the new wastewater treatment plant in Niagara Falls. This is a great opportunity for the Niagara Region that, if feasible, we cannot miss.

I am so very pleased to see that the Region is considering district energy - it is an important step in the right direction.

Thank you so much!

Best Regards,
Anne Mills

Would you please distribute this message to all the members of the Public Works Committee of Niagara Region prior to tomorrow's meeting of the Committee.

Dear Committee members,

District Energy is a highly efficient way to heat and cool a large number of buildings by providing heating/cooling from a central source. A district energy system would provide affordable energy for homes and businesses that is (almost) carbon free.

I'm asking that on Tuesday morning you support the motion to have staff extend a Request for Proposal for a feasibility study of a district energy plant at the new wastewater treatment plant in Niagara Falls. This is a great opportunity for the Niagara Region that, if feasible, we cannot miss.

Thank you for your attention.

Fiona McMurrán

I have just been reading about the possibility of a District Energy Plant for the Niagara Region. I am requesting that you do a feasibility study on this. Any actions we can take to reuse energy to save both money and resources is laudable.

Thank you.

P Winstanley
