NIAGARA REGION
RÉGION DE NIAGARA

Infrastructure Plan

Infrastructure | The Opportunity

- Canada Games are a powerful catalyst for infrastructure development
- Opportunity to leverage funding from government and community partners
- Facilities used for the Games provide vital community legacy
- 2019 Canada Games - \$250 million of infrastructure development
- 2021 Canada Games is a one-time opportunity for Niagara

Niagara Region | Games Infrastructure Plan

- Infrastructure plan calls for improvements to sport facilities across Niagara
- Niagara Region also committed to prepare Comprehensive Business Plan that best supports the development of two key legacy facilities – Canada Games Park and the Henley Rowing Centre
- Games infrastructure plan has widespread support
- 2021 Host Society is working hard to deliver the Region's plan

Infrastructure Plan | Tremendous Benefits

- The planned infrastructure will enable and enhance the Games, and provide:
 - tremendous opportunity to showcase Niagara
 - significant economic benefit for Niagara
- The facilities have also been strategically planned with many community stakeholders to provide a critical legacy after the Games:
 - multi-use and multi-generational facilities with something for everyone
 - health and wellness benefits
 - youth development
 - community development
 - sport hosting and tourism

Legacy Venues | Planning

On behalf of Niagara Region and with the assistance of many community partners, the 2021 Host Society has prepared a Comprehensive Business Plan to support the development of Canada Games Park and the Henley Rowing Centre:

- preparation of detailed designs
- development of construction plan and cost estimates
- planning the ongoing operational framework
- identifying and requesting additional government funding

Infrastructure Plan | Funding

- Federal/Ontario ICIP agreement (March 2018) - funding for certain infrastructure projects including Community, Culture and Recreation projects
- Both governments pointed to ICIP for 2021 Games infrastructure funding
- However, Ontario has delayed the implementation of ICIP
- Federal Gov. responded with one-time Top-Up Fund to address this delay – intended to assist ICIP-eligible project that is shovel-ready and must be constructed this year
- Federal Gov. motivated to provide additional funds if identifies that project as priority
