Dear Honourable Christine Elliott,

Re: Strengthening the Smoke-Free Ontario Act, 2017 to address the promotion of vaping

On behalf of our board of health, I am writing you in support of Peterborough Public Health's call to action regarding strengthening the Smoke-free Ontario Act, 2017 to address the promotion of vaping.

The Windsor Essex County Board of Health supports the call to address retail promotion for vaping products in convenience stores, gas bars and other retail locations across Ontario. Peterborough Public Health's letter (attached below) outlines some of the negative impacts of nicotine exposure on the adolescent brain as well as evidence of respiratory health impacts among youth who vape. WECHU has responded to alarming number of complaints related to youth vaping at schools and within the community.

The Windsor-Essex County Health Unit thanks you for your consideration.

Sincerely,

Gary McNamara
Chair, Board of Health

Dear Minister Elliott,

Re: Strengthening the Smoke-Free Ontario Act, 2017 to address the promotion of vaping

At the February 26, 2019 regular meeting of the Board of Health for the Renfrew County and District Health Unit (RCDHU) the Board considered the attached correspondence from Peterborough Public Health urging the Ontario government to strengthen the Smoke-Free Ontario Act, 2017 to prohibit through regulation, the promotion of vaping products.

The following motion was recommended by the Stakeholder Relations Committee and accepted by the Board on February 26, 2019:

Resolution: # 3 SRC 2019-Feb-08

A motion by M. A. Aikens; seconded by J. Dumas; be it resolved that the Stakeholder Relations Committee recommend to the Board that the RCDBH support the correspondence from Peterborough Health Unit urging the province to strengthen the Smoke-Free Ontario Act 2017 and prohibit the promotion of vaping products and further that it be cc as per the Sudbury letter.

Carried

Sincerely,

Janice Visneskie Moore
Chair, Board of Health
Renfrew County and District Health Unit

Dear Minister Elliott,

Re: Strengthening the Smoke-Free Ontario Act (2017) to address the promotion of vaping

At its meeting on October 10, 2018, the Board of Health for Peterborough Public Health passed a motion to urge the Ontario government to strengthen the Smoke-Free Ontario Act (2017) and prohibit through regulation, the promotion of vaping products.

By and large the changes in the updated Act and regulations are viewed favorably by Peterborough Public Health as it harmonizes medicinal cannabis, recreational cannabis, conventional cigarettes, and e-cigarette laws into one piece of legislation. However, health experts conclude that allowing retail vaping displays and promotion will put thousands of children and youth at risk of nicotine addiction. The legislation only bans actual vaping product displays at retail outlets and does not restrict other types of retail promotion for vaping products. It permits the widespread promotion of vaping products in convenience stores, gas bars and other retail locations across Ontario. This includes freestanding brand promotions now located inside and outside retail locations like gas bars, posters including pictures of products, video product promotion, and many other types of promotion including those featuring actual vaping products, are all allowed. Mass media promotion of vaping produces (i.e., television advertising) has already been seen in Ontario.

Public health representatives are very concerned about the outcome of nicotine exposure on the adolescent brain. There is also more evidence of respiratory health impacts among young vapers. We are sure that these serious health impacts must be of concern to you and the Government of Ontario as well. We agree with a federal commitment to reducing tobacco use to 5% in Ontario by 2035¹ and fear that current promotion of vaping will actually lead to increased tobacco use among youth. Recently released results from the Canadian Tobacco, Alcohol and Drugs Survey (CTADS) shows that current smoking rates for Canadians aged 15 years and over have actually increased to 15.1% in 2017 from 13.0% in 2015.² Your action is urgently needed to protect the health of youth in Ontario and avoid an epidemic of vaping and nicotine addiction. We must work collaboratively to ensure that young people do not start smoking or vaping.

In conjunction with the above actions, the Board of Health requests that the Province invest in a timely evaluation of the implementation of the Smoke-Free Ontario Act to monitor the impacts of the limited promotion of vaping products with a commitment to make the required amendments as soon as possible.

Sincerely,
