Presentation Details

I am requesting 10 minutes to speak before the Social Services Sub-Committee regarding NASO and its community partner agencies. During this time, I will share first-hand, boots-on-the-ground information gathered from community members, frontline workers, and direct observations related to service delivery, living conditions, safety concerns, and accountability gaps. These are not abstract concerns or second-hand complaints, but documented patterns and lived realities that warrant serious review and discussion. My goal is not to sensationalize, but to provide clarity, context, and practical insight that may assist the committee in assessing current partnerships, identifying systemic shortcomings, and exploring constructive paths forward in the interest of community well-being, dignity, and public trust. I appreciate the committee's time and consideration and look forward to contributing meaningfully to this discussion.
